

# SomaScan® Discovery Alliance

Accelerate your research with transformational proteomic analysis

Measure thousands of proteins in a single sample with the **SomaScan platform** to gain new insights into disease biology and drug development.

Discovery alliances have been formed with leading pharma, biotech and academic organizations, including:

Alkermes

Bristol-  
Meyers  
Squibb

Louisiana  
State  
University

Henry Ford  
Health  
System

Cambridge  
University

Stanford

Get the most out of your clinical samples  
with the world's most impactful protein assay

<5%  
median CV  
for plasma

5,000  
proteins analyzed  
in each sample

8 log  
dynamic range  
from fM to  $\mu$ M

200+  
publications  
to date

450,000+  
samples run
